

## MAC MINI SECURITY MOUNT

The Mac mini Security Mount is a lightweight, low-profile bracket made from high-grade aluminum, designed to securely mount any Mac mini model. Compatible with 100x100mm and 75x75mm VESA patterns, it can be installed on walls, desks, tables, or behind monitors. Its ventilated design helps prevent overheating and signal loss, while keeping all ports and buttons fully accessible. Secured with a keyed lock, it offers reliable protection in any environment.

For added flexibility, a cable lock version is also available, featuring a 6-foot (183 cm) loop-end security cable for additional protection.
