

MAST STAND

The Mast Stand is a durable countertop tablet stand crafted from steel and aluminum, compatible with all Compulocks enclosures and mounts featuring 100x100mm and 75x75mm VESA patterns. It supports devices up to 20 inches and 10 lbs (4.5 kg), offering full reverse screen tilt for optimal viewing angles. Integrated cable management with a charging cable trap helps maintain a clean and organized setup. Optional add-ons include an adhesive swivel base and a freestanding stability base. The stability base is recommended for screens 11 inches and larger when the stand is not bolted to the counter.
